PROFILE

Aspiring software developer with strong foundations in full-stack development and UI/UX design, seeking to leverage skills in Java, Spring Boot, and web technologies to build efficient and user-friendly applications.

EDUCATION

B.E. – Computer Science & Engineering,
DMI Engineering College (2021 – 2025) – CGPA: 8.2

Higher Secondary Certificate (HSC),
Vivekananda Kendra Vidyalaya, Vallioor – Score: 82%

Secondary School Leaving Certificate (SSLC),
Vivekananda Kendra Vidyalaya, Vallioor – Score: 85%

PROJECTS

Real-Time Person Reidentification Using Double Layered Convolutional Neural Network
Tools: MATLAB, Python, OpenCV

Developed a deep learning-based system capable of recognizing individuals across multiple surveillance cameras using a double-layered CNN architecture, enhancing accuracy and supporting real-time smart surveillance applications.

INTEREST

Web Development | Software Development | UI/UX Design | Full Stack Development

SKILLS

Frontend : HTML, CSS

Backend : Python, Java

Database : MySQL

Framework : SpringBoot

CERTIFICATES & TRAINING

Cloud Computing (NPTEL) – 12-week online course covering cloud fundamentals, deployment models, and applications.
 Score: 62%
Java Full Stack Development (Ongoing) – Vista Tech, Chennai
 Training includes Core Java, Spring Boot, MySQL, HTML, CSS, JavaScript.
Python Basics(Ongoing) – Training covering fundamentals, syntax, loops, functions, and basic problem-solving

INTERNSHIP

Web Development Intern – JClick Solution (1 Month): Built responsive websites using HTML, CSS, and JavaScript. UI/UX **Development Intern** – Code Bind Technologies (15 Days): Designed intuitive and engaging user interfaces.
